## VOTING MACHINE COMPANY WILL LOCATE IN RUSHVILLE

Cummings Vote Register Corporation  
Rents Offices Here Today  
And Will Move Next Week

WILL BEGIN WORK AT ONCE

Machinery Will be Purchased and  
Installed in The Modern Ap-  
pliance Building

WHY CITY WAS SELECTED

Machine Made by Company, Which  
Was Demonstrated Here, Has  
Many Advantages Over Others

The Cummings Vote Register Corporation, incorporated for a million dollars, manufacturers of voting machines, has decided to locate in Rushville and will begin operations here at once in the old Modern Appliance building in West Third street.

Officers of the company were here today and rented the room formerly occupied by Caron's candy kitchen, in East Second street, for general offices, the board of directors having voted at a meeting in Indianapolis yesterday afternoon to move to Rushville. The office furniture will be moved here next week and actual work will be started just as soon as the machinery can be purchased and installed.

The corporation makes a simplified voting machine which can be manufactured and sold for as much as it costs to make any other voting machine on the market. One of the machines was on exhibition here today and was demonstrated before several persons, who said it appeared to be the greatest thing of its kind ever invented.

It was a striking coincidence that the corporation happened to locate in Rushville. E. W. Roberts of Indianapolis, one of the directors of the concern, is a representative of the General Electric company and has been visiting Rushville for many years. He is a close friend of A. T. Mahin, superintendent of the city water and light plant.

While in Rushville a few days ago on business, he chanced to ask Supt. Mahin if there was a vacant building here which could be utilized for a factory. Supt. Mahin told him about the Modern Appliance building and took him to R. L. Tompkins, the owner of the building. After that things developed fast. When Mr. Tompkins saw the machine demonstrated, he realized the possi-

## COUNTY CONFERENCE TO BE HELD APRIL 8

One of Teams Covering Indiana  
Coming in Interests of Inter-  
church World Movement

THREE SESSIONS PLANNED

Plans are being completed for the county conference of the Inter-church World Movement, which will be held here all day, Thursday April 8. A few weeks ago the county ministers met here and elected officers and decided upon the date of the county conference, which will be held in the First Presbyterian church.

The meeting is for all church members and interested citizens, and includes every denomination in Rush county. On this day one of the 21 state teams will be here for the meeting. The first session will be in the morning at ten o'clock, with an afternoon meeting at three and the closing session at night at 7:30.

A definite program has not been worked out yet, but will be announced in a few days. Three thousand of these conferences are being held in America, and in Indiana there are twenty-one teams actively engaged in this work, and one of these teams will come here for addresses concerning the world survey.

hilities of it and made the concern a proposition which the directors could not afford to turn down. Mr. Tompkins offered them the use of the building for six months without rent to give the company a chance to get started.

Besides Mr. Roberts, other persons interested in the company here today were W. J. Schnessler, who completed the model now being used and his wife, Mrs. M. C. Schnessler, the president of the company, whose father, the Rev. Edwin B. Cummings, invented the machine.

"Since we have decided to locate in Rushville, we expect to live and die here," said Mr. Roberts. "I have been coming to Rushville for a number of years and I know something about the town. It is splendidly located, has fine shipping facilities and is an ideal community in which to live."

The model which the officers of the company had here today, will be brought back to Rushville when the office furniture is moved, and will be installed in the office for demonstration before anyone who should care to see it.

The company will start with eight or ten mechanics and a number of assemblers, and it is predicted when the concern gets well under way, at least a thousand and possibly more people will be employed. The company was anxious to get located at once so as to make some machines to sell for the general elections next fall.

The possibilities of a market for the machine are unlimited. In addition to being used in elections, the concern can make small machines which can be sold to lodges, labor unions and all sorts of associations for the purpose of recording votes. The field for voting machines alone is a big one because of the number of voters being increased due to the woman's suffrage amendment which will be ratified shortly.

Statistics which have been gathered by the company show that to accommodate the United States with voting machines, an average of seventy-seven in each county is required.

The chief advantages of the machine this company makes is the simplicity of its construction and its light weight. A machine which would meet the needs of Rush county weighs only 164 pounds whereas any other voting machine made, for a county of this size, weighs almost ten times that much.

The mechanism of the machine is such that it is impossible to vote for two opposing candidates. Whenever the knob is turned for one candidate, that is the vote which will be registered. A "straight" ticket may be voted, national, state and county, by turning one knob. If it is desired to vote different national, state and county tickets, three different knobs have to be turned. If the voter wishes to "scratch" a ticket, he turns the knob of the ticket on which are the majority of the candidates he favors, and the knobs by the individual candidates on the other tickets. There is no duplication.

There are no levers to pull. When the voter walks out of the booth, the vote is automatically registered as the door to the booths opens. The votes cast for each candidate are totaled automatically by the machine and show on the face of the machine by the side of each candidate. There is no chance of tampering with the vote because the election official would be in possession of the key to the machine.

This machine differs from all others made in that the tickets run vertically, just as on the Australian ballot now in general use, and not horizontally, which is confusing to the voter who has not been accustomed to voting machines.

It is pointed out that the difference in weight alone is an item. It is stated that the cost to Marion county of locating its voting machines for each election is an immense sum, whereas these machines can be transported without great expense and not very much storage.

## TEACHERS SEEK MORE PAY

Employ Attorney at Richmond and  
Will Go Before State Board.

(By United Press.)

Richmond, Ind., April 1.—School teachers of this city today employed an attorney to go before the board of education immediately and present their demands for higher salaries. At a meeting last night the teachers decided on a uniform increase of \$500 a year to satisfy their demands.

At the present time the salaries of the instructors range from \$800 in the elementary schools to \$1,840 for department heads in the high schools.

## WATSON TO PRESIDE AT RICHMOND APR. 20

Senator Consents to be Chairman of  
Sixth District Republican  
Love Feast

CANDIDATES TO BE PRESENT

Senator James E. Watson of this city will be chairman of the political mass meeting at Richmond, which will wind up the Republican rally and love feast there on April 20, members of the committee in charge have announced. Senator Watson has informed members of the committee that he will be present and expressed a willingness to have charge of the evening meeting.

Zell Swain, manager of the Hiram Johnson campaign in Indiana, has informed members of the committee, that efforts were being made to bring the presidential candidate to Richmond for an address. It is planned to have him address an audience in Richmond at night and in Indianapolis in the afternoon.

As the time draws closer to the love feast, it is expected that more candidates for state and national offices will be on hand, and one of the largest old-fashioned love feasts will be given. Invitations to all candidates are being sent out, and replies will begin to arrive in a few days, so that a definite program can be arranged.

## SUFFRAGE LOST IN DELAWARE ASSEMBLY

Vote of House, 22 to 9, Against  
Measure, Removes State as  
Possible 36th to Ratify

DEFEATED IN MISSISSIPPI

(By United Press.)

Dover, Delaware, April 1.—The federal suffrage amendment was defeated in the Delaware house here this afternoon by a vote of 22 to 9.

Three members did not vote and one was absent.

The action of the assembly, opponents of the suffrage amendment hold, will definitely remove this state as the possible 36th to ratify the amendment, thereby making it effective.

Following the defeat of the amendment in Mississippi, suffrage leaders had pinned their hopes on Delaware where they have concentrated their efforts since the opening of the present session of the legislature.

Leaders of both parties have appealed to the Delaware legislature to pass the amendment.

IN GEORGIA PRIMARY

Atlanta, Ga., April 1.—President Wilson's name will go on the ballot in the Georgia primary election as candidate for president. The list closed at noon today and the president's name which had been presented in a petition signed by 100 residents of Atlanta, had not been withdrawn.

RUSH CHAPTER WORK

A meeting of Rush chapter will be held next Monday evening for the purpose of serving work in the P. M. and M. E. degree.

## FARMERS HEAR PLAN EXPLAINED

Meet by Township to Arrange For  
Report on Live Stock Held by  
Them, January 1.

TO CONTROL MARKET SUPPLY

Farmers Will Send Statistics Direct  
to State Headquarters Where  
They Will be Compiled.

The farmers of Rush county that attended the township meetings last night, heard the plans explained concerning the new work that the Indiana State Federation of Farmers' associations has under way to regulate the supply of livestock according to the demand and keep an even flow onto the market. This has been one of the big problems of the farmers in Indiana and of states in the corn belt.

In order to accomplish this, a schedule was prepared and each farmer or stock raiser that attended the meetings was given a copy, with instructions to fill out and forward to the board of directors of the state federation.

The blanks given out last night ask for the number of sheep, cattle and swine on farms January first of this year, the number of births and the number brought on the farms during the quarter for feeding. The blanks also ask information concerning the number sold, died or slaughtered.

Besides these questions several others are asked which will enable the state federation to secure complete data on the livestock situation in Indiana.

At the present time there is no statistical information available for the farmers that will help them to successfully plan their feeding projects and avoid an overflow on the market, which would cause an uncertainty in the price.

Rush county farmers and stock raisers no doubt will fill out these blanks promptly, as they can readily see the value of such information. The farmers last night were instructed how to fill out the blanks, and were told to send them in direct to headquarters of the state federation, and not turn them over to the county agent or township presidents.

The state department in charge of this work expected to have this information from every township in the state within a month, and it is looked forward to by the new state organization as one of the best achievements that it has undertaken.

Over 60,000 reports will probably be sent in during the month, as meetings were held in every county last night for this purpose.

## GATES KETCHUM IS A CANDIDATE

Local Attorney Seeks Democratic  
Nomination For Prosecuting  
Attorney Here

FILES HIS DECLARATION

Gates Ketchum, an attorney of this city, has filed his intentions with the secretary of state, of being a candidate for prosecuting attorney in this county, subject to the decision of the democratic primary election, May 4. Mr. Ketchum is the only democrat seeking this office, and in all probability will not have any opposition. Four years ago he was the democratic nominee, but was defeated at the polls in the November election.

So far the democrats have not named anyone for the office of county clerk, county treasurer or for judge although several names have been suggested as the probable candidates.

3,000 RAIL MEN STRIKE

Fort Wayne, April 1.—Three thousand men employed in the Pennsylvania railroad shop went on strike at ten o'clock here today, the men demanded they be given the increase asked for or have a closed shop.

## MAY CAUSE COUNTY TO STOP HIGHWAY

State Highway Commission Agrees  
to Take Over Route Covered  
by Sabert Offutt Road.

COUNTY COUNCIL TO DECIDE

Called For Monday to Determine Its  
Utility—State Will Eventually  
Pave It.

The granting by the state highway commission of another state road in Rush county will probably result in the proposed Sabert Offutt cement highway, west of Rushville, to the Shelby county line not being built by the county, since it is covered by the additional road takes over by the state commission.

Several Rush county men have interested themselves in the movement to get a state road east and west through Rushville, one having already been granted north and south.

The road to be taken over by the commission will start from the National Road at Greenfield, run to Morristown, thence east along what is known as the Brookville pike to Rushville, and southeast from Rushville through New Salem and Andersonville to Brookville.

Since this will cover the route taken by the Sabert Offutt road and will be paved eventually, by the state commission, it is reasonable to presume, many men believed today, that the county would drop its plans to build a cement road to the Shelby county line.

The contract was once let for the Offutt road, it will be remembered, but Indianapolis attorneys refused to approve the bond issue because the contract price was more than the estimate. The commissioners then ordered new plans and specifications, which were approved by the board Tuesday, and the county council was called for next Monday to pass on the utility of the improvement, as provided in the county unit highway law.

It was stated today that the question of proceeding with the plans for the Offutt road now rest with the county council. If they see fit, at their meeting Monday, to order the construction of the road, the commissioners will advertise for bids. In the light of what has happened, however, the general opinion today seemed that the council would drop the matter entirely because it would mean an expenditure of almost \$300,000, which will be taken care of by the state commission in due time.

There were some persons who argued, however, that it might be many years before the state commission would pave the road because they can not improve all of the trunk line roads, in the state at once. On the other hand, it is pointed out that when the commission takes over a road, it takes care of the upkeep and will see that the road is properly maintained until it is paved.

The north and south state road through Rushville runs from Greensburg to the National Road at Dunreith. It passes just east of Milroy, goes through Rushville and thence northeast along what is known as the Fort Wayne road to Mays, and then directly north to the National Road.

## STEAL \$30,000 PAY ROLL

Thieves Escape After Robbing Bank  
Messengers at Kansas City.

(By United Press.)

Kansas City, Mo., April 1.—Two bank messengers carrying a \$30,000 pay roll were held up and robbed on the bridge between Kansas City and Missouri here today.

The robbery was witnessed by scores of spectators who sat in their motors and watched while the bandits kept them covered. All hands were halted on the bridge while the bandits robbed the messengers. The pay roll belonged to Swiss and Company, packers.

## EX-SERVICE MEN WELL RECEIVED

Petitions For Community Building  
Freely Signed at Township  
Farmers' Meeting

TO BE CIRCULATED IN CITY

Provide Memorial Shall be Known  
as Memorial Hall and Cost  
Approximately \$100,000

The appeals made for support of the campaign to erect a community house in Rushville as Rush county's memorial to the men who made the supreme sacrifice in the world war, as well as a tribute to all of the ex-service men in the county, were favorably received at the township farmers' meetings held throughout Rush county last night.

Ex-service men, all members of the American Legion posts in the county, appeared at all of the meetings with petitions and explained briefly the terms of the law passed by the 1919 session of the Indiana legislature, which gives the commissioners authority to order the construction of a war memorial and to issue bonds to pay for it.

Four petitions were being circulated in the city of Rushville today by the Legionnaires and as soon as the business district has been covered, one petition will be placed in each bank for those who were missed in the canvass.

Only five hundred names of citizens and taxpayers are required to place the matter officially before the commissioners, but it is the aim of the ex-service men to get as many signatures as possible to show the trend of the sentiment in the county regarding a memorial.

Every farmer at the Noble township association meeting in New Salem last night, signed the petition for a community house. Twenty-six of the forty-one farmers at the Rushville township meeting at the Webb school signed the petition and none of the remainder was opposed to the proposition but asked for time to give it some thought. The leaders of the movement in Noble township sent word that the township would be 100 percent for the community house.

It was impossible to get the matter before the Ripley township farmers as there was an American Legion dance there last night. Neither could anything be done in Washington township since the regular meeting of the farmers' association will not be held there until next Tuesday night.

The ex-service men were well received by Walker township farmers at Homer and arrangements were made to have the petition circulated.

## MOTIONS TO QUASH OVERRULED BY COURT

Defendants in Conspiracy Case  
Granted Separate Trials, First  
of Which Begins Monday

BOAZ DEMAREE TO BE TRIED.

Judge W. M. Sparks this morning overruled the motions of Gregg Alvey, Boaz Demaree and Clara Demaree, who filed motions to have their names quashed from the affidavit in the conspiracy charge. Monday afternoon the court heard the arguments in their cases to have their names dropped from the affidavit, which would mean that the case against them would be dismissed.

By overruling their motions, the court compels the defendants to face trial as charged, after they were further impleaded by Jesse Demaree, it is said, in his confession made here last week.

The defendants also filed a motion at the same time to be tried separately instead of jointly, which was granted by the court. Each one will have a separate trial, the first case being that of Boaz Demaree.

# HOG PRICES ARE 25 TO 50 CENTS HIGHER

With Receipts 2,000 Less Than Yesterday, Indianapolis Quotations Advance Today

## GRAIN CONTINUES STRONG

Hog prices were 25 to 50 cents higher in Indianapolis today with receipts 2,000 less than yesterday. Cattle were active and strong and sheep held steady. The grain market continued strong, both corn and oats prices advancing.

Newhouse Garage

U.S. NAVY

Carpentry School

There's no telling what will happen when a novice carpenter is set loose on a nice pine board.

The Navy's trade schools teach everything from boiler-making to watch making. Carpentering is one of the most popular of the trades, and it is one of the most profitable with which to return to civil life.

A three or four years enlistment will give a man time to become a master carpenter, providing always that he is serious and really applies himself to his work.

Five or six years from now some of the above men will be earning good money building houses. Others will be in the service at advanced pay and still improving their knowledge of the trade.

## DIVORCE CASE IS PROBED SUFFERERS BEING HELPED

Nevada Official Investigates Proceedings in Pickford Trial

(By United Press.)

Reno, Nevada, April 1.—The investigation into the entire record of the Mary Pickford divorce case, began yesterday by Robert Richards, deputy attorney general of Nevada was being continued today.

The action was opened following a meeting of the State Bar association when a resolution was passed calling upon the attorney general to investigate the divorce proceedings of Mary Pickford in obtaining a divorce from her husband, Owen Moore on ground of desertion.

### CONTRACTOR BEGINS WORK

Work has been started on the Noah Reddick highway in northern Rush county by the contractor, Charles Redding of Greensburg. The road which is being built runs about a mile south of Carthage, where the cement highway ends, and is the road that runs over the Big Four railroad, about a mile south of Carthage. This road has been in poor shape for several years.

BUY THRIFT STAMPS

Aid Extended to Persons Made Homeless in The Tornado

Richmond, Ind., April 1.—Relief work for those made homeless by Sunday night's tornado was going forward today.

More than 7,000 have been reached in Wayne and Randolph counties of Indiana and Darke county of Ohio to aid those who lost their homes. The local chapter of the Red Cross today were assisting the sufferers.

### TO GIVE PICTURE SHOW

On Friday night April 9, the public schools will put on a picture show of "Alice in Wonderland," a six reel field masterpiece featuring Viola Savoy and Herbert Rice at the Graham Annex. This picture has been shown in other cities and has been pronounced a great success. The public is cordially invited to attend the show.

Chicago, Ill., April 1.—A strike of live stock handlers in the union stock yards was declared off today, according to reports coming from a meeting of the union. The federal arbiter was notified the men will return under an agreement to submit demands for increased wages to arbitration.

## Distinctive Spring Apparel for Women and Three Wise Sayings

ONE woman said—"It is a certain swing in the style that makes some clothes differ from others."

Another said—"Fabric worth is the difference between good clothes and others."

Still another—"Tailoring counts most, for good tailoring is never wasted on poor fabrics."

The three wise sayings of these three clothes-wise women are epitomized in the coats and suits we have for your selection.

Could the best custom tailor produce a suit of smarter line than the model pictured?

The tricotine in this suit is unsurpassed in quality. And tailoring? As fine as the fabric.

## BIG OBJECT IN PRUNING TREES

Assists Development of Strong Framework for Support of Wood and Fruit.

### SHOOT GROWTH IS BIG HELP

Choice Given to Secure Best Possible Distribution From Viewpoint of Training—Prune Young Tree Very Severely.

One of the main objects in pruning young trees is to assist in the development of a strong framework for the later support of fruiting wood and fruit, says V. R. Gardner of the University of Missouri College of Agriculture in Circular 99. It is desirable that this framework be developed as quickly as is compatible with a proper maturing or ripening of the wood in the fall. The main scaffold limbs and their branches which go to form the framework of the tree are developed from shoots.

Three-Year-Old Peach Tree Pruned for Full Crop.

When it is suggested that the first pruning should remove approximately three-fourths of the shoot growth made by the tree during its first year in the orchard, this does not mean that three-fourths of all the shoots should be cut out of the tree. Probably a third to a half should be removed, and the remainder cut back to a half or a third, or in some cases a quarter, of their length. In other words, the pruning should consist partly in a thinning out and partly in a heading back. The same statements hold for the pruning of trees a little older, except that as the trees become older relatively more of the pruning should consist in thinning out and correspondingly less in heading back.

cause the tree to produce more total shoot growth, it reduces the number of new shoots and those which do grow are correspondingly longer and stockier. In the very young trees we expect to retain only a few shoots, enough to form the main scaffold limbs and their branches, and we want these to be as strong and vigorous as possible. Hence we desire only a few to form, perhaps twice as many as we wish to retain, thus giving us a choice in order to secure their best possible distribution from the viewpoint of training.

### Prune Severely.

In the case of the tree a little older (three or four years), we expect to retain a larger number and also a larger proportion of the shoots because then we are developing the branches and sub-branches of the scaffold limbs; and we still want enough shoots produced so that some choice may be made between them. With these general considerations in view it becomes evident that the very young tree should be pruned severely, but as it becomes older and larger pruning decreases in severity. It is impracticable to attempt to reduce this general principle to a definite rule to be followed with all trees. Good judgment should be exercised in its interpretation. However, it may be a kind of a guide to some to state that the amount of pruning to be given after the first year's growth in the orchard should in average cases remove perhaps three-fourths of the shoot growth of the preceding year; the second pruning should remove perhaps two-thirds of the shoot growth of the second season; the third pruning should remove a half to two-thirds of the shoot growth of the third season, and the fourth pruning probably should remove something less than a half of the shoot growth of the fourth season. Pruning the fifth and sixth seasons should be somewhat less severe.

### Heading Back and Thinning.

When it is suggested that the first pruning should remove approximately three-fourths of the shoot growth made by the tree during its first year in the orchard, this does not mean that three-fourths of all the shoots should be cut out of the tree. Probably a third to a half should be removed, and the remainder cut back to a half or a third, or in some cases a quarter, of their length. In other words, the pruning should consist partly in a thinning out and partly in a heading back. The same statements hold for the pruning of trees a little older, except that as the trees become older relatively more of the pruning should consist in thinning out and correspondingly less in heading back.

### First Missionaries to Islands.

One hundred years ago two men were sent from Torrington, Conn., to be the first missionaries to the Hawaiian Islands, then known as the Sandwich Islands. The event was commemorated at Torrington.

## PEACE RESOLUTION FAVORABLY REPORTED

Fixes Date For End of War Between the United States and Germany—No Change in Text.

### TO TERMINATE WAR RULES

(By United Press.)

Washington, April 1.—The resolution declaring a state of peace between the United States and Germany was reported favorably by the house foreign affairs committee today.

Practically no change was made in the text as introduced yesterday. The vote ordering a favorable report was 12 to 6, with one member voting present.

The resolution fixes a date for end of the war between the United States and Germany, thus setting a time for the termination of war restrictive measures.

## HIGH COURT UPHOLDS MADISON COUNTY CASE

Decision Affirms Constitutionality of County Unit Law in Selling Bonds For New Road

### COMMISSIONERS WERE SUED

(By United Press.)

Indianapolis, Ind., April 1.—The supreme court of Indiana today upheld the constitutionality of the county unit law in the case of George Forrey vs the commissioners of the Madison county.

Forrey sought to prevent the treasurer and auditor of Madison county from issuing road bonds under authorization of the unit law. He also attacked the constitutional right of the commissioners to determine on improvements under the law and then set in judiciary capacity on remonstrances against such improvements.

The decision affirms the ruling of the Madison county circuit court.

## OATS RELISHED BY LIVE STOCK

Mistaken Idea to Think That Horses and Mules Are Being Sidetracked on Farms.

### ACREAGE IS ON INCREASE

Experts Who Have Made Special Study of Crops Advocate Extensive Sowings—Most Important of Small Grain Crops.

(Prepared by the United States Department of Agriculture.)

Here is an interesting bit of farming logic that looks sound, but the conclusion reached is absolutely false:

"Oats," the argument runs, "are raised principally as feed for horses and mules."

"The enormous increase in the number of automobiles and trucks in the country is making the horse and mule a back number."

"Therefore, with fewer horses there is need for less oats, so why not plant less acreage to oats or stop planting this crop altogether?"

The fallacy is twofold. The number of horses and mules on farms, if decreasing, is doing so at a rate so slow as to have little or no effect on the oat crop.

Furthermore, statistics show that American farmers are not cutting down the total oat acreage but are actually increasing it.

#### Oats Proportion Grows.

This is not all. The proportion of oats to corn and wheat has increased steadily in the past generation. Half a century ago in every 100 acres of improved farm land there was an average of less than five acres sown to oats. In each succeeding decade of the last 50 years the average has been increasing. During the past ten years it reached an average of almost eight acres of oats out of every 100 acres of improved farm land. In contrast to this increase in the last 50 years, the number of acres devoted to

## KNECHT'S Weather Man Says:

### Knecht's O. P. C. H. Style Headquarters

is fairly free from weeds it is unnecessary to plow it again for oats. If corn stalks are still standing in the field selected, they should be broken down and then cut into short lengths with a disk harrow so that they will not interfere with the drill or with harvesting machinery.

Sowing should be done as soon as the land can be gotten into proper condition in the spring. Delay may seriously reduce the harvest returns. The practice of seeding broadcast is much less satisfactory than sowing with a drill, since by the former method uneven distribution results and many kernels are buried too deep.

#### Good Seed of First Importance.

It is of the utmost importance that good seed be used. If last year's crop was of fair quality it can be used for seed after being cleaned and graded. It is decidedly preferable to buy new seed if the latter is at all likely to prove poorly adapted to local conditions. In cleaning and grading the oats one-third to one-half of the total bulk should be removed, leaving only the heaviest and plumpest kernels for sowing. Usually it will be advisable to treat the seed for smut. This may be omitted, however, if last year's crop was practically free from it and if the separator with which it was thrashed was also free from smut spores. The formaldehyde treatment is well known and it is only necessary to remind the farmer that if the seed is treated during cold weather it should not be allowed to freeze while it is wet. As the cost of the formaldehyde treatment is so small, many prefer to take no chances and so treat the seed every year. If it is sown before it is dry, one must make allowance for its swelling in setting the drill, otherwise the stand will not be sufficiently dense.

Experts recommend that between 2 and 3 bushels of seed be used to the acre. A larger allotment than this will not often result in material increase. In some cases on land free from weeds as little as 1½ bushels per acre has produced satisfactory results. The yield of straw is usually coarser and greater from thin than from heavier seeding, and the danger from lodging is increased.

The varieties recommended for sowing in the corn belt include oats of the Sixty-Day or Kherson type, especially some of the pure-line selections, such as have been put out by various experiment stations. These include the Iowa and Abion (Iowa No. 103) from the Iowa station, and Nebraska No. 21, from Nebraska. There is nothing better than the Silvermine for those who prefer a larger kernel, which matures later. This applies particularly to northern Illinois, northern Iowa, Wisconsin and Minnesota. Here also the Sixty-Day type is decidedly popular because of its large yields. In the cooler sections larger and later varieties, such as Swedish Select, Big-Four, Welcome, Golden Rain, and Victory, can be grown advantageously.

#### COULD NOT BEGIN TO TELL ALL

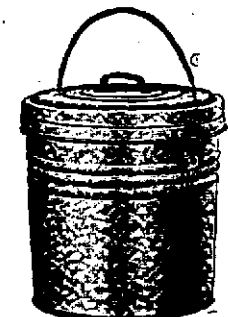

"I could not tell you all the benefits I had from the use of Foley's Honey and Tar," writes Miss Rose Florke, 209 Hawkins Ave., N. Brad-dock, Pa. "I had a cold in my chest and fearing it would cause pneumonia I tried Foley's Honey and Tar and it was not long till I felt relieved. I hope others suffering from severe colds will try it." Many such letters have been written about this time-tried, reliable family medicine for coughs, colds, croup and whooping cough. F. B. Johnson, Adv.

## The Shame of a Great Country

"Never again—not another bond for me."

That is approximately the expression you frequently hear in this community from people who are holders of government bonds purchased during the war.

While our men were in France fighting to make the world safe for democracy and to retain our country under its own sovereignty the people were asked to buy government bonds. They were even urged to buy clear up to the limit.

Campaigns and drives were conducted to induce the public to disgorge its savings and deposit them in the public hopper. Even the fighting men themselves were given no rest until they had subscribed their quota.

Americans of every class responded nobly, hundreds of thousands denying themselves in their patriotic endeavors to aid in the prosecution of the war. Our own community contributed liberally, as did every other section of the country.

The public was allowed to believe that their bonds would be the safest kind of an investment, always at par and possibly soon at a premium.

They bought and kept on buying—because they loved their country and had faith in Uncle Sam.

But now they are disillusioned—distressingly so.

They find that their bonds are not above par, that they are not at par, but have shrunk in value to considerably below par.

They receive a low rate of interest, and can not dispose of a single bond without a financial sacrifice. The public in general is not saying much, but it is doing a lot of hard thinking. It is sore and disgruntled and does not disguise the fact.

There is, however, a remedy—if congress will apply it.

Let these bonds be placed by law on the same basis as our national currency—at par value—with the interest retained. Then let it be made a criminal offense for any person or corporation to refuse to accept a bond at par value, plus the interest that has accrued to date. Or in lieu of this, let the interest on these bonds be raised by act of congress to six per cent, thus placing the bonds on a par with real estate mortgages and other investments.

If a citizen uses the mails to misrepresent a bond or block of stock that he is endeavoring to sell he violates the law and the government sends him to jail.

The government should live up to the same standard of honor it requires from its citizens by restoring these bonds to par value by act of congress.

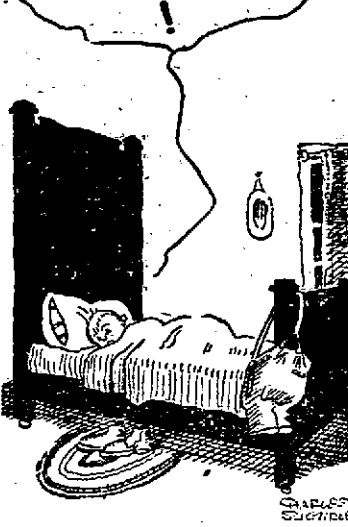

It can do no less and retain the confidence and respect of its people.

## The Great American Habit

We Americans have a great habit of finding fault with our public officials, in congress and elsewhere. If their official acts do not please us we are quick to pass censure, to say what we think. This is praiseworthy. It indicates that we prefer

## MICKIE SAYS

OBEN! OBEN! IN ALL MY LIFE I CAN'T FORGET TO LOOK OVER THEIR STOCK OF ENVELOPES IN PAPER STATEMENTS. IN ORDER WHAT THEY'RE GOING TO NEED INSTEAD OF WRITING UNTIL THEY'RE ALL OUT IN THEM RUSHING! TH' PAPER PRINTERS N' POOR OL' MICKIE T' PIECES 2, O. H. BOY! 'S A CROOL OL' WORLD!

to sit back and growl rather than put the case directly up to the official concerned. It is an easy way of letting off steam, and accomplishes nothing but the ragging of our own dispositions. Our officials know this, and because they do know it they are frequently quite indifferent to our views. When we talk with a big stick and smite with a broomstick we aim at nothing and hit less. That's us.

Yes, times certainly do change. Speak of a chicken now and a fellow immediately thinks of the prettiest girl he knows.

Yes, it takes a mighty strong mirror to withstand the strain of some faces. But not yours—oh, no, not yours.

Today we note that spring is quite springy.

## Sap and Salt

By BERT MOSES

We do not take life as we find it, but as others tell us it is.

A sin doesn't look as big to us after we commit as it did before.

Try to so live that people will admire you for what you are rather than for what you have.

One reason why it is hard to get recruits for the army is because the American people do not believe in war.

When a woman really makes up her mind to get something, you might as well come across and have the thing over.

Hez Heck says: "About half a woman's time is spent in talking, and the other half in looking for some one to listen to her."

## Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will Be Relished by Your Friends When You Repeat Them.

The annual banquet of the various offshoots of the Jergens family was held and the annual squabble between James and Walter took place and continued from pale oysters to creamless coffee. The Jergens mother endeavored, as usual, to pacify the makcontents. Her efforts were talkative but futile. Finally James turned to Walter and said, "Listen, little Wind in the Head, you'll be forty-two on your next birthday. And if you live that long you'll have been dead ten years."

**CASH PRIZE OFFER:** A prize of a joke to OUR DAILY LAUGH which we accept. Only new jokes, those never before published, are considered. Contributions will not be returned unless stamped envelope, bearing your address, is enclosed. Mail stories to contest editor, Daily Republican.

**Had Left Trivial Things Behind.** Mary had attended kindergarten the preceding year and on her return from the first day's attendance of the primary grade this year her mother questioned her concerning some of the customs, asking: "Are they the same as you had in kindergarten?" Filled with a sense of her advanced position, Mary answered indignantly: "Why, mother, they don't do those things in the higher grades."

## Birds Which Pay Way in the County

The state department of conservation has prepared a series of sixteen articles on insectivorous birds which combat voracious insect pests that annually collect a tax of many thousands of dollars by destroying fruit and cereal crops. These articles are written for the benefit of Hoosiers so that these friends of the farmers may be protected and allowed to carry on their valuable work.

The chipping sparrow is a migrant that comes to us the last of March and returns south the last of October and the first of November. It winters in the Gulf states and Mexico and in the summer comes as far south as the Great Slave Lake. The "chippy" for that is his name, is an inch shorter than the English sparrow. He has a chestnut-colored crown, forehead black, with a white stripe through the center; upper parts grayish; wings and tail brownish; underparts pale gray, almost white. Male and female are alike in appearance. Chipping sparrows raise two broods a season from four to five young in each brood.

The food of the chipping sparrow consists of insects and small seeds; the former of smooth caterpillars, like cutworms and cankerworms are favorites, but beetles, grasshoppers, moths, ants and bugs are also eaten. An examination of 230 of their stomachs shows that insects and spiders form 38 per cent of the food of adults, the remainder being seeds. The seeds of grasses alone constitute 48 per cent more than half of it being crab grass and pigeon grass. The young are fed with smooth caterpillars of various kinds, as well as grasshoppers, crane flies, spiders and similar creatures, and when it is recalled that the parents come to the nest with food 200 times in one day from daylight to dark, it can be readily understood how much good these birds do.

## EX-SERVICE MEN WELL RECEIVED

Continued from Page One

throughout the township. Anderson, Posey, Jackson and other township farmers also gave the former soldiers a hearing and looked favorably upon the plan.

H. S. Davis, who spoke in the favor of the project at the Rushville township meeting, expressed the sentiment of many farmers when he said that taxes were high and probably would be higher, but that they were not as high as they would have been if the Rush County boys had not done their duty during the war. He said it was the least the people of Rush County could do to show their appreciation of the service performed by the men who sacrificed and risked their lives for their country.

The petitions which will be presented to the commissioners set forth the purposes of the building and state that the probable cost will be one hundred thousand dollars. They provide that the building shall be known as Memorial Hall, and read as follows:

"The undersigned, adult citizens and tax payers, of Rush County, Indiana, hereby petition and pray your Honorable body, for the establishment and maintenance, within such county, of a Memorial Building, for the soldiers and sailors of the war fought by the United States against Germany and Austria-Hungary."

Said building shall be known as Memorial Hall and shall be in the form of a community building which shall include quarters for:

1. Ex-service men of the war against Germany and Austria-Hungary.
2. The Civil War and the Spanish American War veterans.
3. The Farmers Federation of Rush County.
4. The Public Library.
5. Rest and Recreation Rooms for Women.
6. And to provide for all other needs of Rush County citizens in such a building.

The probable cost of said building to the county to be One Hundred Thousand Dollars.

Said building to be constructed and maintained under the provisions of an act, of the General Assembly of the State of Indiana, approved March 14, 1919 and published in Acts of 1919, Page 562; providing for Memorials for soldiers and sailors of the war, fought by the United States against Germany and Austria-Hungary."

Verd Boboit was reported to be ill today at his home in North Perkins street, suffering from a heavy cold. Mrs. Denny Ryan of North Morgan street is recovering from an attack of neuritis.

## Y. W. C. A. UNIFORMS TO CLOTHE STUDENTS

Suits Worn by War Workers Will Be Given to Peniless Students in Switzerland.

Official uniforms of the Young Women's Christian Association minus the Blue Triangle, the Association insignia, will be worn next winter by women students who have been stranded in Switzerland during the war and who, because of lack of funds, inability to re-enter their native country, a desire to finish their university courses or because they have no family to which to return, will remain there next year.

Elizabeth M. Clark, who has been in Switzerland for ten years under the World Student Christian Federation, has appealed to the National Student Committee of the Y. W. C. A. for clothing for the 300 foreign women students in Switzerland. The scarcity of clothing last year among these almost refugee students made it necessary for two girls to share one coat so that only one could go to classes or go out of doors at a time.

Four large packing cases of all kinds of used clothing, save hats, which is in good condition, have been collected last year from women college students in the New England States, Ohio, West Virginia, Pennsylvania, Maryland and Delaware by the Student Committee of the National Y. W. C. A. to be sent over in response to Miss Clark's appeal. This clothing will be dyed, cleaned and made over in Switzerland.

In addition to the clothing collected from students in colleges nearest New York a case of uniforms, which have been turned in by Y. W. C. A. secretaries who did war work, and the official gray uniform ulsters is being sent. As uniforms are being turned in by war workers they will be claimed by the Student Committee, which will remove the insignia and prepare the uniforms so that they may be worn by these women who have been forced by world events to remain in Switzerland for several years.

Joe Tunkins says the value of an education depends on whether a man uses it to increase his working capacity or only just to project around for a job.

## EXCHANGE

The Helping Hand of the Homer Christian church will hold an exchange at Caldwell's Furniture Store, Saturday, April 3rd. 1920

## COULD NOT STAND STRAIGHT

It does not take long, when the kidneys are out of order and not doing their work properly, for poisonous acids to accumulate in the system and cause aches and pains. D. C. Diamond, 2865 W. 30 St., Cleveland, O., writes: "I caught cold and it settled in my kidneys. My back and sides were so lame and sore I could not stand straight. I use Foley Kidney Pills with good results and am glad to testify to their helping power." F. B. Johnson.—(Adv.)

VOTING MACHINE COMPANY  
WILL LOCATE IN RUSHVILLE

Continued from Page One

room is required.

The Rev. Mr. Cummings, after whom the company is named, devoted the last twenty-five years of his life to perfecting the machine according to his daughter, Mrs. Schuessler, who is intent on giving the machine to the world under his name. She has had opportunities to sell the patents to other concerns and take a royalty.

Mrs. Schuessler says her father conceived the idea of inventing a machine to prevent election frauds when he was a member of the South Dakota legislature. He was a retired Methodist minister and devoted the rest of his life to work on his hobby.

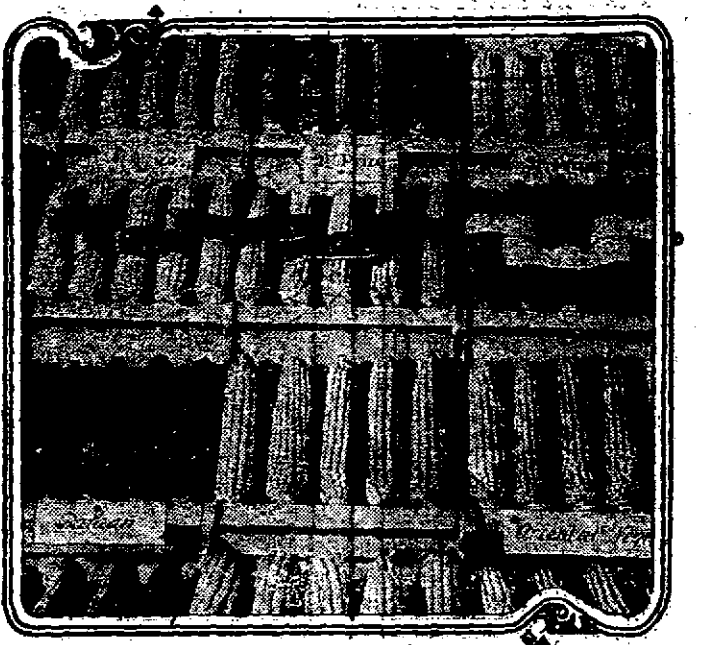

He perfected the machine before his death and Mr. Schuessler took up the work where he left off and turned out a working model. They were ready to put it on the market when the war broke out, but Mr. Schuessler had to take a part in war work and their work was postponed.

The stock in the concern is all common, with a par value of \$10 a share.

**Cut This Out—it is Worth Money**

DON'T MISS THIS. Cut out this slip, enclose with 5 cents and mail it to Foley & Co. 2835 Sheffield Ave. Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache, and sluggish bowels. F. B. Johnson.—(Adv.)

How Would You Like to Harvest Two Crops  
of Corn a Year as They Do in the Philippines?

No, reader, this corn was not grown by one of our local farmers! It wasn't grown in the United States, even. It was grown in the faroff Philippine Islands by Filipino schoolboys. Two fine crops of corn a year are produced in the Islands.

The Philippines are doing some wonderful things in the agricultural line. The Philippine government has fine agricultural schools throughout the islands, and the Philippine legislature, composed entirely of Filipinos, is each year making larger and larger appropriations for this important work.

The staple food of the Islands is rice, but corn is coming right along in popular favor. Its use was given great impetus in the last year because of a rice shortage. Other important Philippine crops are hemp, sugar cane, coconuts, coffee, tobacco and pineapples. Lumber is also an important industry.

There are hundreds of thousands of acres of land lying idle in the Philippines, which have a greater area of fertile land than Japan—this in spite of the fact that the population of the Philippines is 11,000,000 while that of Japan is around 55,000,000. There is every reason to believe that some day the Philippines will have a population as large as that of Japan today. The Filipinos are the only Christian people in the Orient, and their young men are working night and day to prepare themselves for the responsibility of citizenship in the Philippine Republic, which they believe to be near at hand.

**Many Plants Contain Sugar.**

It is an interesting fact that sugar exists not only in the cane, beet-root and maple, but also in the sap of about one hundred and ninety other plants and trees.

GUESTS OF CARTHAGE POST

Several Hundred Attend Free Dance  
Given by Legionaires

The Carthage post No. 202 of the American Legion gave a free dance last night in the new box factory building in that town, and several hundred people attended and participated in the evening's entertainment. The guests not only included the townspeople, but many were there from Rushville and the surrounding places. Music was furnished by the Greensburg Jazz band, and the legionnaires proved to be good entertainers, and the idea of a free dance was carried out to the best satisfaction of all those who attended.

JACOB ADAMS, AGE 72, DIES

Arlington Citizen Expires This Morning of Apoplexy.

Jacob Adams, aged 72 years, died this morning at one o'clock at his home in Arlington, death being caused by apoplexy. The deceased who was well known in and around Arlington, had been ill for several days and death was expected.

The survivors besides the widow are two daughters, Mrs. Carry Swartz, of Iowa, and Mrs. Robert Pottingham, of Seymour, Ind., and two sons, Jess and John, both of Schaller, Iowa.

BEAR OIL  
For Your Hair

You never saw a bald Indian—They don't use any hair oil. For ages they used bear oil, with other potent ingredients, from the bear, secreted the forest of Nature. A reliable formula is given in the book "Bear Oil" for making your own. It is a simple, practical, and effective remedy for all hair troubles. It is a sure cure for itching scalp, dandruff, and all other hair troubles. It is a sure cure for itching scalp, dandruff, and all other hair troubles. It is a sure cure for itching scalp, dandruff, and all other hair troubles.

EXECUTOR'S SALE OF REAL ESTATE

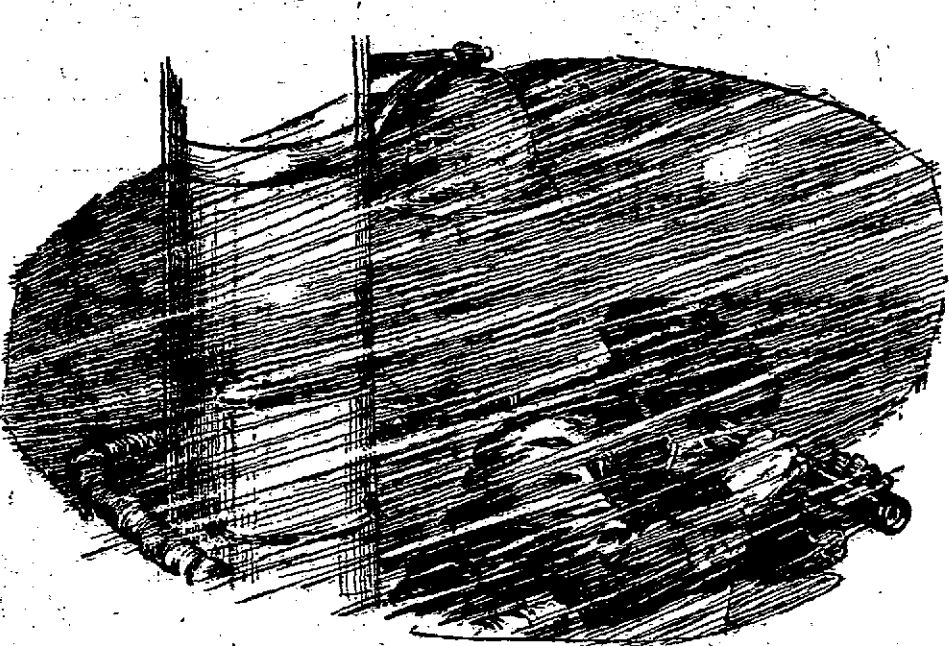

Notice is hereby given by the undersigned executor of the will of Nicholas Brown deceased, that by virtue of the authority conferred by said will, he will offer for sale at the residence of said executor in Arlington, Indiana, at 1:30 o'clock P. M. on **Saturday, the 12th day of May, 1920,** and from day to day thereafter, until sold, unless sold on said day, at private sale, the following described real estate owned by decedent at the time of his death, to-wit:

Lot number thirty, 301-10 Fletcher Tract, Addition to the town of Arlington, in Rush County, Indiana.

TERMS: Said sale will be made subject to the approval of the court; one-half of the purchase price, cash; one-half due in six months after date of sale; purchaser giving his note drawing interest at the rate of 5 per cent per annum, secured by first mortgage on real estate sold.

JERRY BROWN, Executor.

PASTORS' CONFERENCES

Will Be Held in Every State in Union Under Auspices of Interchurch World Movement.

Arrangements have been completed for the great series of pastors' conferences to be held in the central West this month and in March, under the auspices of the Interchurch World Movement. It is expected that these meetings will to a large extent explain to clergymen everything about the movement and also show them the tremendous impetus already gained by this world evangelistic campaign. Pastors' conferences will be held in every state in the Union, having been arranged on simultaneous dates from Feb. 16 to March 12.

The first of the pastors' state conferences in this part of the country will be held at Milwaukee, Feb. 18 to 20, and Dr. R. Calvin Dobson, field manager for the Interchurch World Movement for Wisconsin, has sent out invitations to all the protestant clergymen of the commonwealth. Acceptances thus far indicate that the Milwaukee conference will be the most notable meeting of the kind ever held in Wisconsin.

Other conference dates are as follows:

Iowa—at Des Moines, Feb. 23 to 25; Michigan—at Lansing, Feb. 25 to 27; Indiana—at Indianapolis, March 1 to 3, and Illinois—at Chicago, March 10 to 12.

A uniform program of procedure will prevail at all the conferences. They will open at 2 p. m., continue that day and evening, all the next day and well into the afternoon of the third day. Every phase of the Interchurch World Movement will be covered and explained by men actively identified with the great work.

Each conference will begin with a fifteen-minute devotional exercise at 2 p. m. This will be followed by an opening address to explain the aims and scope of the movement. The remainder of the afternoon will be devoted to the foreign survey, on which so much work has been done already as to permit of many rather detailed statements of facts that, it is expected, will amaze everybody not familiar with conditions beyond the North American continent.

The evening session, after a devotional exercise, will be devoted to "The Outlook" and "Everyland," the magazines published by the Interchurch World Movement, and to a complete

Peculiar Wedding Ceremony.

One of the most curious wedding ceremonies in the world is that in vogue among a certain race of dwarfs inhabiting the Anguian islands. The two parties climb two flexible trees growing near each other, which an old man then makes bend toward each other. When the head of the man touches that of the girl, they are legally married.

Man's First and Last Things.

One of the first things a child wants to do is to get its hands on a lead pencil and make some zigzag marks on a sheet of paper, which it happily tells its happy mother is a letter to daddy. About the last thing an old man thinks of doing is to get an old stump of a lead pencil and tremblingly make notes for his lawyer, indicating to whom he wants to will his property.

WANT ADS BRING RESULTS

Mrs. J. V. Young will be hostess for the members of the Chit Chat Embroidery club tomorrow afternoon at her home in East Seventh street.

Mrs. Beale's Sunday school class of the First Presbyterian church will hold an exchange in the Weeks meat market Saturday morning, April 3.

Mrs. Lewis J. Cline entertained the War Mothers yesterday afternoon at her home in North Morgan street. An important business session was held after which the mothers spent the afternoon socially.

The regular stated meeting of the Martha Poe chapter No. 143, O. E. S., will be held Friday evening. A good attendance is urged as important business is to be brought before the chapter.

The Ladies of the Bible class of the First Presbyterian Sunday school, will meet with Mrs. G. F. Sheldon tomorrow afternoon at 2:30 o'clock. All the ladies of the class are urged to be present.

The Ladies Aid Society of the First Baptist church met in business session yesterday afternoon at the home of Mrs. E. E. Perrin in North Morgan street. At this meeting plans were made to hold an exchange Saturday, April 10.

Miss Ava Gung delightfully entertained a number of her school friends and English teacher last evening at her home north of the city.

A delicious six o'clock dinner was served after which the guests spent the remaining hours with singing and dancing. The guests were the Misses Jane Durrenberger, Eva Richardson, Dorothy Davison, Cecile Whitton, Freda Custer, Barbara Lovejoy, Vera Freeman and Jessie Davison.

The Industrial Club was delightfully entertained today at noon with a delicious pitch-in dinner at the home of Mrs. Ed Spradling in East Second street. Thirty members were present to enjoy the repast. Upon the arrival of the guests they were reminded of the day being April 1 for on the front door was hung a card which stated "Go to the Back Door" and when the guests walked around the house to the back door, another card was hung on that door which said "Go Back to the Front Door" and immediately the ladies remembered that is "April Fool Day." After the three course dinner the afternoon was spent in a social way, as this was observed as a holiday by the club.

### Amusements

**13th Episode Today.**  
The thirteenth episode of the serial, "The Great Radium Mystery," entitled "The Scalding Pit," is the offering at the Mystic theater today, together with a picture in which Pete Morrison and Makda Lane are starred, and a Lyons and Moran comedy, "Old Clothes For New." Tomorrow's program will be "The Day She Paid," which is based on the story, "Oats For the Woman" by Fannie Hurst.

## City Girl's Gold Tipped Cigarette Has "Snuff Stick" Rival in South

This Young Mountain Matron Is Enjoying Her Afternoon Chew While Her Husband Smokes His Favorite Pipe.

Here is an unusual picture of marital felicity. It was snapped by a worker for the Interchurch World Movement during a survey of living conditions in the Tennessee Mountain district. The young woman in the picture, a bride of a few weeks, is using the mountain substitute for a cigarette, a "snuff stick"—a stick coated with snuff and industriously chewed. The habit has two advantages over the gold-tipped cigarette of the city girl. It is more economical and it lasts longer—a well made "snuff stick" having only one rival for longevity—the "all day sucker" of school days.

### TRIAL IS SET.

William Bass of Carthage, who was arrested yesterday afternoon on a warrant charging him with not sending his 13-year-old boy to school, was arraigned this afternoon before Squire Stech, and entered a plea of not guilty. His trial was set for Monday, April 12. The charges were preferred against him by James Miller, county trustee officer.

and it lasts longer—a well made "snuff stick" having only one rival for longevity—the "all day sucker" of school days.

The Interchurch World Movement finds distressful ignorance and poverty among these mountain folks and suggests a new religious program—to couple the Bible with practical instruction in agriculture, carry it out on model farms, with schools, good roads and other community needs as the ultimate goal.

## FOUR ARE INDICTED BY FEDERAL GRAND JURY

Arrested in Connection of Alleged Advance Information on Supreme Court Decisions.

### HELD IMPORTANT OFFICES

(By United Press.)

Washington, April 1.—Four persons were indicted by the federal grand jury here in connection with its investigation of the alleged advance information on decisions of the United States supreme court, it was learned today.

The four men were indicted for violation of section 37 of the federal penal code. This investigation covers conspiracy to defraud the government.

The men indicted are:

Ashton Embry, former secretary to the supreme court justice, McKenna Darnett; E. Moses, president of the federal supply company of Washington; James Hardwood Graves, former attorney at the special divisions of the Department of Justice and M. Millard Mayer, formerly a major in the army. Both Embry and Graves have resigned their official positions.

## UNIVERSITY HOSPITAL DOING GREAT WORK

Robert W. Long Hospital Cares For Sick of State Without Cost.

Few people in Indiana realize that the Indiana University School of Medicine and the Robert W. Long Hospital at Indianapolis are virtually one and the same institution—that each is an adjunct to the other and that both are devoted to the great work of taking care of the ill and the ailments human flesh is heir to—and that each is the property of the sovereign commonwealth of Indiana.

sick and afflicted of Indiana without cost.

There is an average waiting list of seventy-five persons desiring to get into a hospital that contains only 112 beds.

### Only 17 Pay Wards.

With all its facilities, the Robert W. Long Hospital has only 17 private wards that may be paid for by persons able to do so. The remainder are devoted mainly to free patients. To obtain admission it is necessary to procure a certificate from the township trustee and naturally the patient must be a resident of the state.

With the trustee's certificate, showing the patient's need and inability to pay for treatment, admission is furnished by the hospital in the order the application is received. And, as above set forth, there is an average waiting list of 75. This will indicate to the thinking person the great need for enlargement through state funds of this worthy institution.

The Robert W. Long hospital is now working to the fullest capacity possible. It is held to be the most completely equipped hospital in Indiana for the diagnosis, treatment and care of the sick or for performing major and minor surgical operations. This hospital offers to poor and indigent residents of Indiana all the advantages that can be obtained by a paying patient and the statement is emphatically made that in the wards no nurse knows which is a charity patient and which is a paying patient. The charity patient gets the services of one of the regular medical or surgical staff of the institution—men who are at the top of their pro-

essional. The nursing staff consists of a personnel of the highest type in the profession.

The Robert W. Long hospital is very proud of its record in the treatment of children. Crippled and deformed children have been relieved by the score. For instance, fifty-two operations for cleft palate, by which the patients have been enabled to speak plainly without impediment; twenty-seven hare lip operations, and similar relief of malformations, all bear testimony to real benefits to as many individuals within the past year. Sixty-one operations for club-foot and other malformations of the feet are recorded in the past few months—all resulting in making more useful citizens for the state of Indiana.

### Serves Entire State.

The hospital makes an especial effort to be of service to the state and county institutions of Indiana. In the past year 522 patients were received and cared for without cost to the parent institution. In its report of patients received by counties it is apparent that the benefits of the Rob-

ert W. Long hospital spread to all corners of the state and there is no county but what has received some material benefit in the way of this free service.

Applications for admission are received daily from every section of the state. If it could be possible to double the size of the hospital by rubbing some magic lamp, it is likely that the institution would find itself in increased demand. But the situation as it stands presents a crying need for action, either on the part of the state of Indiana or on the part of some generous and wealthy philanthropists, or both.

Since the opening of the hospital and up to Oct. 1, 1919, there have passed through the Robert W. Long hospital 9,837 patients, an average of 107 admissions a month. And out of this number 70 per cent were given treatment without a cent of cost to the patient.

The Robert W. Long hospital is the only institution of its kind in the state and inasmuch as it is a part of Indiana University it is believed the alumni of Indiana University can exercise a great power by spreading information concerning the institution and its needs. With the alumni of "old I. U." (and I. U. is now preparing to celebrate its one hundredth anniversary) interested in the welfare of the Robert W. Long hospital it is confidently believed by the heads of this institution that its needs will be given the serious consideration they deserve on the part of the people of the state it serves, to the end that the hospital may soon function to its fullest potential strength, for the good and glory of the commonwealth of Indiana.

## NEW FLOORS FOR OLD

### Elastica Floor Finish The One Perfect Floor Varnish

Elastica Floor Finish is made especially to withstand the hard wear and frequent washing to which floors are subjected. It combines quick and hard-drying properties without sacrificing elasticity or durability in any degree. It dries free from dust in from four to six hours and sufficiently hard over night to be walked on and may be rubbed with pumice stone and oil to produce an eggshell finish.

Elastica Floor Finish may be used on floors of all kinds—new or old, natural wood, painted, grained, or stained surfaces, also over linoleum or oilcloth.

Water will not affect this varnish; it does not scratch white or spot, and, while the wood may become dented the finish remains intact. Elastica Floor Finish may be subjected to any test of wear and tear that floors receive.

In addition to the above we handle a full line of PAINTS, WALL FINISH, ENAMEL, VARNISH, BRUSHES.

## Fate Often Worked Its Way Into W. G. McAdoo's Life

(The Daily Republican will from time to time publish interesting sketches about the life of the presidential candidates, both Democratic and Republicans. The first, dealing with Wm. G. McAdoo, democratic candidate, appears today, and will be followed soon by the others.)

### NUTSHELL STORY OF W. G. McADOO'S LIFE

1863—Born near Marietta, Ga.  
1882—Appointed deputy clerk.  
T. S. Circuit Court, Tenn.  
1885—Admitted to the bar.  
1885-1892—Practised law at Chattanooga, Tenn.  
1885—Married Sarah H. Fleming.  
1892—Moved to New York.  
1903—President of Manhattan & Hudson R. R. Co., formed to build tunnel system under Hudson river.  
1909—Fourth tube opened under President Wilson.  
1912—Death of Mrs. McAdoo.  
1913—Secretary of Treasury under President Wilson.  
1914—Married at White House to Eleanor Randolph Wilson, daughter of President.  
1917—Director-General of Railroads.  
1919—Resigned as Treasurer and Director-General.  
1920—Practising attorney in New York.

"It's a funny thing, how fate will treat you once in a while," said former Secretary McAdoo.

"I remember as a barefoot boy playing around Milledgeville I was the leader of a gang of half a dozen kids who longed very much for a baseball bat, but never were able, even jointly, to raise the necessary dollar.

"One day I hit on a scheme. I told all the boys about it. We would write Commodore Vanderbilt, then in the public eye as railroad builder and financier, and ask him to loan us a dollar.

"The boys appointed me to write the Commodore a letter. We all went together to the postoffice to mail it. Then we all waited and waited together at the postoffice for weeks and weeks. But never did we hear a word from Vanderbilt.

"Yet as the fates would have it, in 1917 as director-general of railroads I became boss of all the Vanderbilt lines."

William Gibbs McAdoo's life has been full of the realization of his boyish whims. He likes to tell how at 9 years old he always wanted to satisfy his curiosity to know how the two railroads at Milledgeville crossed each other.

"I could not get it through my head that the tracks would cross on the same level or that one might pass over the other. So one day I trudged the distance of two miles out to the crossing to see for myself."

McAdoo went to New York in 1892 and until 1903 was a partner of law with William McAdoo. The first incident which brought him into public light was his idea to drill a tunnel beneath the Hudson river and connect New York City to the neighboring cities in New Jersey. Completion of this stupendous engineering scheme required seven years and expenditure of \$72,000,000.

"It's the innumerable that challenged me," McAdoo said, recalling the days when he battled hard with engineers' opinions than his workmen later did with their drills and shovels. "They told me it couldn't be done, and that's why I was determined to show them it could be done."

McAdoo's chief task at the outset was to convince financiers that the abandoned half-finished shaft under the river could be utilized as the beginning of the tunnel system he had in mind. After months and months of consultation with eminent engineers he succeeded in convincing them a new one should be constructed. He used in convincing the tube. With their O. K. he set about to raise \$4,000,000 for a bond issue to take over the old shaft.

Seven years later, in March, 1910 the fourth tube was opened to the public and the system put into operation. President Roosevelt at Washington touched the button which started the first train through the tubes, in which rode Governor Hughes of New York and Governor Post of New Jersey with McAdoo. Completed the system and the 22-story Hudson Terminal station in lower New York represented an expenditure of \$72,000,000.

"I used to think the building of the Hudson tubes was the biggest thing I ever would be called on to

handle," said McAdoo. "But when, as Secretary of the Treasury under Woodrow Wilson, I found it necessary to handle the gigantic finances the war on Germany required, my old accomplishments sank into insignificance. Then when the President gave me the job of handling the railroads of the country—well, I haven't understood yet how I got away with it and came out alive."

When Wilson announced his cabinet after his inauguration in 1913, it included the name of William Gibbs McAdoo as Secretary of the Treasury. Then four years later when, as a war measure, the gov-

### Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allenrhu Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about pers. Your druggist has been appointed agent for Allenrhu in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.—(Adv.)

### HAUGH CASE STARTS TODAY

Woman Who Was Divorced Here  
Accused of Assault on Husband.

Indianapolis, Ind., April 1.—Mrs. Marguerite Haugh divorced wife of J. Guy Haugh of this city, was to be tried today in criminal court on a charge of assault and battery with intent to kill. Her former husband, who was granted a divorce on his cross complaint in the Rush circuit court at Rushville last summer, is the prosecuting witness. The alleged attempt on Haugh's life was made in a garage in Indianapolis the night of the divorce. Haugh was granted a divorce.

A special venire of fifty jurors was drawn for the case, but the defense filed a motion yesterday waiving jury trial and the case is being heard by Judge Collins.

I am a candidate for the nomination of Representative on the Republican ticket and am asking you for your support.

Have always been a republican and farmer.

### HOBOS NOW SCORNS THE BREAD LINE

Survey Made by Interchurch World Movement Shows That Even the Cheap Lodging House Is Going Out of Business.

The old "bread line" is gone from its accustomed place in the cities. In the slums throughout the country huddled queues of men no longer wait to be fed. Their passing is a symbol of the passing of the hobo.

Everywhere, for lack of guests, the cheap lodging houses are being abandoned. Only a few old, decrepit men remain in the Salvation Army Industrial Homes. In Kansas City the once crowded dormitories of the "Helping Hand" building are closed. In Lincoln, Neb., in 1915 there were 1756 non-resident single men who applied for aid, while in 1918 there were only 136. The hobo, the wandering worker who went to the lodging house and the bread line between his seasonal jobs,

has been lifted from his old place by the war. A study of the conditions of migrant labor is now being conducted by the Interchurch World Movement that it may lay the facts before the Protestant Churches of America, whose closer co-operation is its larger purpose. This study shows that the hobo has found a closer succession of jobs, a higher return for his labor. He has become almost a "steady" worker. He no longer needs his old refuges.

Beyond the reach of these agencies, he offers the Protestant Churches an opportunity to provide new means of influencing his life and maintaining his standard of living, and the Interchurch World Movement survey is determining how this may best be achieved.

### Fate Often Worked Its Way Into W. G. McAdoo's Life

Continued from Page 1  
When took over the rail system of the country, it was on McAdoo's shoulders that fell the burden of administering the lines.

"I thought I was pretty busy with treasury affairs, but it was a man's job when I had to divide my time between the treasury department and the railroad administration. The only way I kept my health was to force myself to stay in bed eight hours every day, whether I kept or not. I usually spent sixteen hours a day at work.

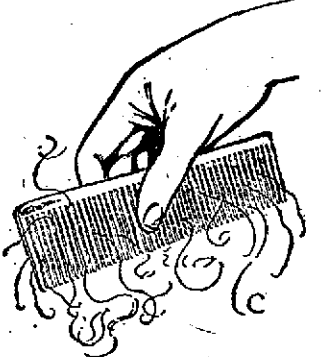

"I used to start the day at eight o'clock with a light breakfast with Mrs. McAdoo. Then I would walk to the treasury department carrying with me two portfolios—one containing papers of the treasury and another for the railroads. I spent the forenoon clearing away business, conferring with heads of departments and talking to a dozen or so visitors who had business with the treasury.

"At 1 p. m. I usually walked back to my house for luncheon, and then I would ride to the Interstate Commerce building where the railroad administration was housed. I rarely ever left my office there before 8 o'clock at night. Then I went home, taking with me my two faithful portmanteaus of documents.

McAdoo stayed on the job in Washington until February, 1919. He then resigned, telling President Wilson he was forced to take the step to guard his health and to reach his diminishing finances.

### "DANDERINE"

Stops Hair Coming Out;  
Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff besides every hair shows new life, vigor, brightness, more color and thickness.

### 'THE MISSING LINK' TOPIC

Subject of L. E. Brown's Sermon  
at Christian Church Tonight

"The Missing Link," will be the subject of the sermon by Rev. L. E. Brown at the services in the Main Street Christian church this evening. There was a fine large audience present last night to enjoy the music by the large chorus choir and the sermon on "Sore Spots" that presented the leprosy of sin and its effects on the soul, and the process of cure. Lloyd Nelson sang a beautiful solo. Tonight there will be special music by Mrs. Georgia Morris and Miss Wanda Wyatt.

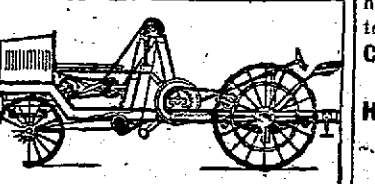

There were five additions to the church at the services last evening. Friday afternoon at 3:30 The Young Ladies Mission Circle will hold a prayer service with Miss Edith Brown, 601 North Main street.

### MECHANISM IS TRACTOR AID

Particularly Applicable Where Rear Axle Is Driven From Motor Mounted at Front.

The Scientific American in illustrating and describing a driving mechanism for tractors, the invention of L. M. Yaggy of Bowman, N. D., says:

This invention is applicable to tractors generally and more particularly to a tractor in which the rear axle is driven from a motor mounted on the tractor at the front. A specific object is to provide a drive means in which ratchet mechanism in driving connection with the driven axle is actuated

Side Elevation of a Tractor Embodying the Invention.

from the motor by driving means including a system of belts and belt-means controlled by the movement of ratchet levers.

## Delicate Children

There is nothing like Vinol, our  
Cod Liver and Iron Tonic, to  
build up frail, sickly children.

### Her Doctor Advised Vinol

Aiken, S. C. — "My little girl five years of age had been delicate all her life. Last January pneumonia left her in a very weak, run-down condition with no appetite, and she could not keep still a minute, not even in her sleep. We were very much worried about her, and our druggist, who is a doctor, said Vinol was the best tonic he knew for one in her condition. We tried it and you ought to see how she has improved by its use. I cannot say too much for Vinol." — Mrs. LEONARD W. GEORGE.

We ask all parents of weak, sickly, delicate children in this vicinity to try Vinol with the understanding that we will return your money if it fails to benefit your little ones. Children love to take it.

## PUBLIC SALE

The undersigned will sell at Public Auction at his farm, one-half mile west of Columbia, and five miles east of Orange, on

TUESDAY, APRIL 6, 1920

AT 10:00 A. M. SHARP

### 5 Head of Horses 5

1 team of bay horses, 8 and 12 years old, weight 2400 pounds, no better team anywhere. One black mare, 12 years old, a great brood mare, an excellent line mare and a real puller. One three-year-old draft mare, sound and broke, sired by a registered Percheron horse weighing 2200 pounds. 1 coming two-year-old colt.

### 29 Head of Cattle 29

Consisting of 9 head of milk cows; one roan cow, 6 years old, with roan calf by side; this cow will give 6 gallons of milk a day; 5 Jersey cows with calves by side, 5-gallon cows; the following 3 cows will be fresh in April: 1 spotted Shorthorn cow, 1 roan cow and 1 red cow, which is one of the best cows I ever owned; 1 red cow, will be fresh in May; 1 black cow and 1 brindle cow, both giving a good flow of milk. This is the best lot of milk cows I ever offered for sale; they are all young and straight in every way. 1 pure bred Shorthorn bull 2 years old; 4 pure bred Shorthorn heifers, not bred; these heifers would make someone a nice start in the Shorthorn business; 1 white Shorthorn heifer 3 years old; 1 roan Shorthorn heifer, 3 years old, bred; 2 Angus heifers, coming yearlings. The balance are young steers and heifers just ready for grass.

### 45 Head of Hogs 45

4 Big Type Poland China sows, double immuned, will have pigs by day of sale; 1 registered Big Type male hog, double immuned; 40 head of feeders, weighing from 50 to 100 pounds.

### 39 Head of Sheep 39

25 head of Shropshire ewes with lambs by side; 6 ewes without lambs; 8 registered Merinos; 6 ewes and 2 buck lambs; 1 nanny goat, family broke.

FARM TOOLS—One disk harrow with oats seeder attachment, 1 Janesville 2-row corn plow; 1 corn planter with fertilizer attachment, used 2 years; 1 eight-foot Deering binder, with tongue trucks; 1 flat bed with hog rack; 1 hay tedder. Some harness and other articles too numerous to mention.

CORN—500 Bu. of Good Sound Yellow Corn and some Good Seed Corn.

TERMS MADE KNOWN ON DAY OF SALE.

## STATE COMMISSION REPEALS QUARANTINE

Ben Placed in 1917 on White Pine Due to Blister Rust, is Now Lifted by State Entomologist

### DISEASE UNDER CONTROL

Indianapolis, Ind., April 1—The State Conservation Commission has repealed the quarantine on white pine, placed in effect in 1917 by the state entomologist because of the white pine blister rust. It is announced that the disease is now under control.

A regulation was adopted designating all state reservations controlled by the Indiana Conservation Commission, as game reserves, where wild fowl and wild animals of all kinds will find sanctuary therein.

The Indiana Forest Reserve of 2,600 acres, the Turkey Run State Park of 280 acres, McCormick's Creek Canyon Park of 350 acres, and the State Game Preserve with 500 acres are included in the new sanitary order which prohibits the molestation of game or birds on these reservations at any time.

The commission which is composed of W. A. Guthrie, chairman, John W. Holtzman, Stanley Coulter and Richard M. Holman, instructed Richard Lieber, Director of The Department of Conservation, to prepare exhibits from all divisions of the department for the centennial celebration in Indianapolis June 7.

## STATE PARKS ARE OPEN

Turkey Run and McCormick's Creek Ready For Summer Business

Indianapolis, Ind., April 1—Turkey Run and McCormick's Creek Canyon Indiana's two state parks, were opened today, the department of conservation announced.

Turkey Run is a 280 acre tract of virgin wilderness in Northern Park county. It was visited by more than 33,500 people during the last season.

McCormick's Creek Canyon is located three miles east of Spencer. The road between the park and Spencer has been dragged and will be gravelled this spring, the department announced. This park has 350 acres and is heavily wooded.

## JAZZ DYING LINGERING BUT A PAINLESS DEATH

London, April 1,—“Jazz” is dying a lingering but painless death here.

At most ballrooms now, only one “jazz” item will be found among twenty others, such as the “Voleto” a bowing and scraping edition of the waltz—the “Lancers”, which an American described as a catch-as-catch-can dance. And the One-step—which (today is a model of decorum.

“Jazz is not without its mourners. It was a good friend, bringing gaiety to many saddened hearts and fresh energy to many faltering feet.

### CANDIDATES TO APPEAR.

Democratic and Republican candidates for governor, seven of them, will be the guests and chief speakers at the banquet at the Claypool Hotel, April 7, held in connection with the Franchise League convention. This is the first time that the candidates from the two parties have ever appeared at the same time. The event is arousing great interest all over the state. It is expected that this will be the largest banquet the Franchise League has ever held in consequence.

### SPECIAL SERVICE TONIGHT.

The service this evening in the chapel of the First Presbyterian church will be one of special interest in view of the fact that tomorrow is Passion Friday. The message will be one appropriate to the occasion, being a heart to heart talk on the crucifixion. Even the general public will find the hour a very helpful one.

### GET RID OF “SPRING FEVER”

If you lack energy, if you are tired and languid, if you do not feel like exerting yourself—if you lack “pep”—the chances are that your bowels are sluggish. A Foley Cathartic Tablet is a good and wholesome physic that will rid you of biliousness, gas, bloating, sick headache, sour stomach or other ills that attend indigestion and constipation. They cleanse the bowels, sweeten the stomach and invigorate the liver. F. B. Johnson.—(Adv.)

## An Easter Suit Guaranteed for Six Months' Wear

AN Easter suit should look well—and it should wear well, too.

Dubbelbilt suits, besides handsome fabric, good style, careful tailoring, have special reinforcement at every point of wear and strain. That is why every Dubbelbilt suit carries the famous Dubbelbilt guar-

antee: Six months' wear, without rip, hole, tear, or we will repair the suit free.

This picture shows only one of the attractive new models of Dubbelbilt suits. In sizes for boys from 6 to 18 years old.

**HIGH RENTS COME TO STAY FOR YEARS**

U. S. Housing Head Says The Country is Short More Than a Million Dwellings

IN TOUCH WITH SITUATION.

Corporation Works Out Figures Showing Comparative Cost in 1913 and 1919.

By RALPH F. COTCH.  
(U. S. Staff Correspondent.)

Washington, Mar. 31—High rents and high building costs have come to stay for years, President LeRoy K. Sherman of the U. S. Housing Corporation, predicted today.

"There is no reliable indication of a drop," he said. "The housing shortage now is just as acute as a year ago. It is conservatively estimated that the country now is short about 1,000,000 dwellings."

"In my opinion it will take at least five years to catch up and get back to normal."

Sherman, as president of the housing corporation, has built 6,000 homes in big cities in all sections of the country. Experts working under him kept elaborate cost sheets in every conceivable angle of the building business.

Sherman has figures showing most minute details of building ranging from the cost per cubic yard to the cost per square yard of roofing, wall building, laying, plastering, and so on.

Furthermore, the housing corporation head has tried to keep in close touch with the building situation in every big town and city in the country. Here is his verdict.

"Only in Washington does there seem to be even the beginning of relief from the tremendous pressure of the shortage of dwellings that grew up during the war period," he said.

"In Chicago, New York and other big cities the shortage of dwellings seems just as acute as ever."

"The cost of labor and building

**Get Your Tractor Now**

THOUSANDS of farmers now own Titan 10-20 tractors. Ask any of them whenever you get a chance and you will hear that they found owning a tractor operating successfully on low-priced, low-grade fuels—kerosene, distillate, etc.—is a paying investment from the very outset.

At hundreds of International tractor schools in the past few months farmers have been shown that kerosene engines must be specially designed—and that Titan 10-20 tractors are specially designed and built to operate on kerosene, or any other crude oil distillate testing 39 degrees Baume or higher.

**Titan—The Best Tractor Buy**

They are easier to handle than a farm team and easier to care for. You can get your work done on time, plow deeper, prepare better seed beds, do more work with less help, and get more profit from your farm. They do belt work that cannot be done by horses and pull more in proportion to weight than horses. Horses must have rest whether the work is crowding you or not. If necessary, you can keep your Titan working continuously, without rest, until the work is done.

Here you have economy, efficiency, dependability—three prime essentials of farm power—carrying an assurance of bigger crops, better yields, and fatter profit. Order a Titan early. Be sure of having it for the labors ahead.

The price of this Tractor complete with a three-bottom P. & O. plow equipped with combination coulter and jointer and extra shares is \$1275.00 delivered on your farm and you instructed how to operate it. We carry the parts and give service.

If you are interested see this outfit at work on the Charles Carney farm, northeast of New Salem and see that it does the work of nine horses, nine sets of harness, three sulky plows and three men. Come in and let us explain our proposition.

"If it's for farming, we have it."

Rushville, Ind.

**Ten Minutes with this Elegant New Chalmers Tells You the Story**

YOU find it starts at once; that it is running with amazing sweetness in a few seconds. You note no vibration. You call for speed and you get results. You tone it down and you detect a willing and perfect servant obeying every wish.

Ten minutes gives you a recast opinion on motor cars. Your admiration for a Chalmers deepens. You search for the cause and you find it in Hot Spot and Ram's-horn.

You may or may not know that "gas" is worse this year than last, that it is becoming heavier and heavier and harder and harder to "burn."

Few engines have met this serious condition.

The great Chalmers engine has. It takes the low grade "gas," throws it against the Hot Spot, which vaporizes the "gas" into a "cloud," and makes it "fine for fuel."

Ram's-horn, minus sharp corners and abrupt bends, rushes it to the cylinders at a velocity of 100 miles an hour.

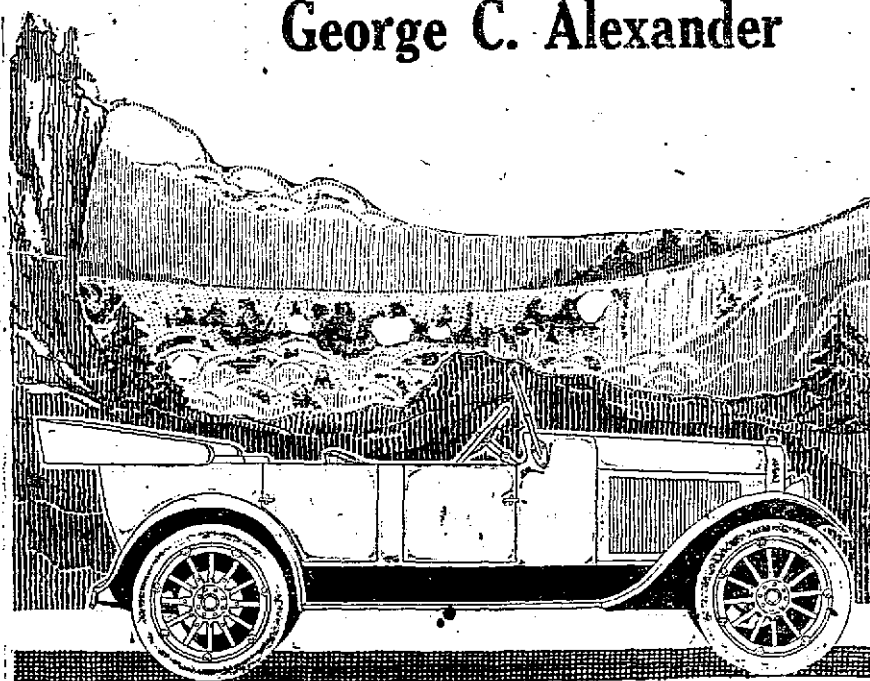

Thus the cylinders get a fuel that they can "burn," can "digest," instead of "lumpy" or "rainy" kind of "gas."

Not only can you note results in a distinguished smoothness of action, but in repair bills.

For Hot Spot and Ram's-horn provide against thinned out lubrication and consequent burned bearings, scored cylinders, frequent fouling of spark plugs, and wasted "gas" through the exhaust.

Ten minutes will tell; and then you, too, will say Chalmers is one of the few great cars of the world.

**George C. Alexander**

material holds little promise of going down. The general cost of building has increased from 65 to 70 percent since 1913, according to accurate cost sheets of experts in the corporation. Their figures have been tested by careful application to the construction of dwellings of almost every variety.

"Many people who have money to building houses now are holding off because they hope prices will drop. This has a tendency, of course, to keep prices up. To get the nation's housing situation back to normal we must build at a rate calculated to keep abreast of the normal increase in demand for dwellings plus an additional rate which will make up the shortage of 1,000,000 homes now existing. So far as I can see, now we are not building even at a rate fast enough to take care of the natural increase in demand.

"By normal conditions I mean conditions similar to those prevailing in pre-war days when in every big city there was a general exchange of tenants every spring. In some cities it also was the custom for landlords to give one month's rent free to incoming tenants. Such conditions indicate a nearly equal balance of supply and demand. This is normal. It will be at least five years before this condition is restored, I think.

"There is one hopeful sign that building costs will be reduced eventually. Architects and contractors everywhere are working continually to devise new and short processes of building. They also are experimenting with new materials. Thus many builders recently attended a national convention called to discuss the proposal of building concrete houses which are poured into molds and can be turned out much more quickly than the average brick or frame house can be completed.

Another hopeful sign is the combination of labor and material.

## Decay-Proof Fence Posts

"My fencing is up to stay—thanks to Long-Bell Creosoted Yellow Pine Posts—the kind that last a lifetime."

This is the united opinion of farm owners everywhere who are now using Long-Bell Creosoted Posts instead of the ordinary kind that rot and decay after a few years.

## CREOSOTED Yellow Pine POSTS

Our posts are cut from selected trees of slow growth, air dried and yard seasoned, and treated by the Long-Bell vacuum creosoting process until distilled creosote is forced into every part of the sap wood. The germ of decay is killed, every fibre of the post is protected—there's no decay.

Send at once for Free Circular regarding "The Post Evaluation" and learn how to end all your post and fence troubles and save from 50% each year now spent in repairs and replacements.

## HOME MADE RECIPES CATARRH AND COLDS

### Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same. Ask your druggist for three quarters of an ounce of Mentholized Aroclene and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

is the dentrifice that contains the properties recommended as ideal by United States Army dental surgeons

## WAS NERVOUS AND RUN DOWN

### RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. Seven a day for seven days—Wonderful results.

### COMMON WITCHHAZEL

#### FINE FOR SOME EYES

It is surprising how quickly eye inflammation is helped by common witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One elderly lady, who had been troubled with chronic eye inflammation for many years, was greatly helped in two days. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cup FREE. F. E. Walcott, Druggist—(Adv.)

### HIGH RENTS COME TO STAY FOR YEARS

Continued from Page 10  
nation of representative citizens in many localities to building houses in cooperation, charging a fair rate for the money advanced. Quantity production of this kind makes for economy in construction.

Housing corporation experts have worked out figures showing the comparative cost of erecting in 1913 and 1919 a 6-room dwelling of a model used by the corporation in many cities in 1918. The table reads:

	1913	1919
Net cost of structure	\$2,932.36	\$4,030.58
Cost of land at \$1,000 per acre	143.00	143.00
Cost of public utilities	400.00	680.00
Contractor's profit and overhead, 15 percent	439.85	739.59
Architect's fee—plus plans and supervision, 6 percent	202.33	340.31
Total	\$4,117.54	\$6,833.38

### SPREAD MANURE ON PASTURE

Profitable to Apply Early in Spring  
Some Form of Nitrogen to Give Grass Good Start.

To rejuvenate a worn-out pasture manure should be spread on liberally as secured, while it is a good plan to supplement the manure by applying acid phosphate or basic slag. It will also be found profitable to apply early in the spring some quickly available form of nitrogen to give the grasses an early, vigorous start whereby pasturing may commence as early as possible and thus help reduce the feeding bill.

## TAKE PEPSINCO

the best remedy for indigestion that ever came out of a drug store.

You know that pepsin is good for indigestion but pepsin could never do what PEPSINCO will. We have dealt in medicines long enough to know the various uses and value. We unhesitatingly say that PEPSINCO is the best remedy for indigestion, gas, flatulency, food distress, sour stomach and pains under the ribs, that ever came out of a drug store. Sufferers of indigestion and dyspepsia well do well to take PEPSINCO.

Ask your druggist—he sells and recommends Pepsinco.

## NAME "BAYER" ON GENUINE ASPIRIN

Get relief without fear as told in "Bayer package"

The "Bayer Cross" is the signature of the true "Bayer Tablets of Aspirin." The name "Bayer" is only on genuine Aspirin prescribed by physicians for over eighteen years. In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally. Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid.

## Now is the time

To send us garments that you intend to wear in the early part of the spring and summer. Discarded clothes, of the "every day" type, as well as the so-called "Sunday type," whether shabby or soiled, will come out of our washing process, just like new. Nothing is too big for us, nor is there any material that is new to us. Garments sent here are not used for experimental purposes, as our cleaners are experienced in the art of modern cleansing.

# Fordson

TRADE MARK

## Farm Tractor

The Fordson at a Glance

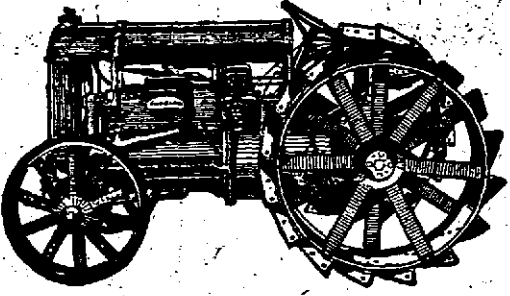

The Fordson is light, weight only 2,700 pounds. The Fordson Tractor is economical both to buy and to operate—two and one-quarter gallons of kerosene per acre plowed is a fair average.

The Fordson Tractor is powerful—will pull two 14-inch plows in the stiffest soil or drive a threshing machine—maintain 1,800 pounds draw-bar pull at plowing speed—2,500 in low gear. Twenty to twenty-two H. P. is available at the belt pulley.

The Fordson Tractor is durable—simple, rugged, accessible in design with new parts. The toughest steels which science can produce are used to give strength and durability instead of depending on heavy masses of metal. All moving parts are enclosed and lubricated—air is washed clean to protect the motor.

The Fordson Tractor is never laid up for repairs—because we make the pledge to every Fordson buyer that we will be keeping complete stock of parts and expert mechanics close at hand, helping in every way possible to get the best work and the most work out of his tractor and to avoid delays and lost time.

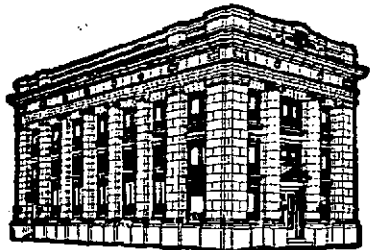

Fordson durability, dependable quality, backed by such service as this, is an unbeatable combination.

## Be Rid of Painful Corns

"Geta-It" Makes Them Loosen Up So They Lift Off Painlessly. There's no more pain after a few drops of "Geta-It" lands upon corn or callus and instantly dries.

In a day or two you lift the old misery-maker right off without even feeling it. That's the last of Mr. Corn and the last of your misery. Millions who have lost their corns the "Geta-It" way say it is the only common-sense way to get rid of the pests.

"Geta-It," the never-failing, guaranteed money-back corn remover costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago.

Sold in Rushville and recommended as the world's best corn remedy by F. B. Johnson & Co. and Hargrove & Mullin and F. E. Wolcott.
